Description
The basic function of this portable inline inductor is to inject foam concentrate into a water line. It provides a simple and dependable means of injection. The MI inductor is designed to handle high counter pressures, related to the inlet pressure, meaning that a long distance between inductor and the foam generator can normally be tolerated. Each inline inductor is calibrated for a given fixed flow/pressure relation. It can be connected anywhere in the main water line between the pressure water source and the foam generator(s).
Performance data

- Working pressure: Max 16 bar/232 psi
- Water capacity at 16 bar: Max 400 l/min - 105 USGPM
- Proportioning: Max 6%
- Pressure drop: Approx. 35% of inlet pressure
- Material: Brass
- Connection: Male 1" BSP or specified coupling
- Weight: 2,6 kg/5,7 lbs

Foam concentrate hose 1/2" L=1,5 m, pick-up tube, pressure gauge and check valve included.
